Trouble is inevitable in life, but when trouble gets inside the heart, a person is really in trouble. Such spiritual "heart trouble" is a threat to every believer living in this world. It may present itself in many different forms:

- Depression
- Disappointment
- Loneliness
- Mistreatment
- Grief
- Guilt
- Fear.

But there is good news: God has provided help in His word. *Let Not Your Heart Be Troubled* offers pastoral counsel and biblical comfort to real people with real problems, helping them to navigate the path of suffering with calmness of soul and peace that passes understanding. Writing as a "fellow student in the school of affliction, not as a professor or expert on the subject, but one who has traveled far enough to know that God is real, his promises trustworthy, and his love better than life," Gowens believes that the believer has the spiritual resources necessary to glorify God by enduring the many crises of life. These pages contain both practical guidance and substantive encouragement. Here is real help for the hurting.

About this book: Michael Gowens writes concerning *Let Not Your Heart Be Troubled*: "This title differs in tone from my previous books. Each of my prior titles fall into the doctrinal genre, with a more academic aim of teaching the Bible. This volume, however, is thoroughly

pastoral, with a focus on helping struggling people to think through and respond to the specific issues that trouble them in a God-honoring way. The writing style, consequently, is more personal, applicatory and direct than I've previously employed. Such a pastoral approach with its note of comfort and encouragement, together with its aim of applying Biblical principles to real-life situations, is especially needed (it seems to me) in these challenging days."

The book is organized into three sections. **Part 1** offers **General Counsel** regarding the theme of suffering.

Part 2

provides

Specific Counsel

regarding particular areas of inward trial, such as depression, loneliness, guilt, grief, and more.

Part 3

gives

General Comfort

, applicable to trials and afflictions as a whole, whatever particular form those troubles may take.

The **Introduction** concludes with these words: "May these pages convey my unhesitating conviction, forged and hardened on the anvil of personal experience, that God is faithful to sustain His believing children in their various trials, that He is enough for you, that His grace is sufficient, and that His purpose in chastening and training His child is not to crush, but to purify, that you may reflect His glorious character and serve Him as a 'vessel meet for the Master's use'."
